BE CAREFUL!

This was a phishing email and you clicked on a link, that could have been malicious. Please be wiser next time 😊

Have a look on what you should check before clicking on that link.

Many enemies, many weapons!

So, be alert!

- Take Encrypted backups off premises
- Make Cloud backups – especially for crucial files/Databases/VMs
- Monitor backups
- TEST YOUR BACKUPS!!!!

A backup that can't be restored is useless!

Thank you for your time
Stay safe stay sane!
